Dear Mr. Patron:

Re: Civic Square Usage Application

Your application to book Civic Square has been received and we are unable to approve the request for the Canadian Nationalist Party meeting as it does not meet the policy guidelines. City Hall premises are used for celebrations, ceremonies, displays and passive leisure activities which are of interest and benefit to the public at large. The guidelines indicate that:

City Hall premises shall not be used for activities which:

- are restricted and not open to the general public;
- interfere with pedestrian traffic or with normal business activities conducted by the public in City Hall;
- present a risk to public health and safety or a risk of damage to City property;
- are commercial in nature;
- are denominational.

The City of Saskatoon views your application as an activity which is considered denominational and would suggest identifying an alternative location.

Regards,

City of Saskatoon
